THOMSON MAKES RECORD

Establishes New World's Mark of 14 2-5 Seconds for 120 Yard High Hurdles.

By DANIEL.

Special to THE SUN and NEW YORK HERALD. PHILADELPHIA, May 29.—Pennsylvania's triumph over the forty-fourth annual intercollegiate meet of the Amateur Athletic Association of America in Philadelphia today was decided by the last event, the 120 yard high hurdle race, in which Penn's Thomson made a world's record of 14 2-5 seconds.

The athletes representing the University of California did not cut the swath with some critics had expected they would, but they made quite a showing at that, with a total of 19 1-2 points. Stanford was sixth with 17 points, Cornell seventh with 11, Penn State got 10, Yale, winner in many other years, made only 5 1-2 points.

One New World's Record. The meet was not only marked by the best competition for the team title, which was won by Penn, but also by the establishment of a new world's record. This was set in the 120 yard high hurdle race, in which Penn's Thomson made a world's record of 14 2-5 seconds.

Thomson went to the front at the start and cleared the hurdle in faultless form. Walker Smith, winner of both hurdle races last year, was second, followed by Murray's record in his semi-final heat. In the 320 yard low hurdle Thomson's record-breaking effort told on him and he was beaten, though in second place, by W. R. Wells of Stanford.

The meet furnished many a surprise, but it must be confessed that in the main the performances on the track were disappointing. It took no better than 1:13 from Earl W. Eby for Penn to take the 440 yard race. It required only 4:22 2-5 by M. L. Shields of Penn State to win the mile. P. P. Brown of Williams had no further to run than 2:27 2-5 to account for the two mile.

Three championships went to the Pacific coast, the 220 yard low hurdle, the hammer throw and the 440 yard race. In the quarter mile O. W. Eby of Stanford of California started the Eastern stars with a victory in 43 2-5 seconds. New York itself got one title, that in the shot put, which was won with ease by Howard Cann of New York University. He saved the big city from total eclipse.

Conditions for the meet were ideal. The weather was perfect and the track lighting fast. About 20,000 persons saw the games.

Cann Wins First Title. The first championship of the meet was won by Howard Cann, the all-around athlete from New York University. He took the shot put with 45 feet 1 1-2 inches, easily beating the other two, John H. Nichols of Dartmouth, who took second place, put the 16 pound ball 22 feet 5 1-2 inches. C. D. Halsey, Jr., of Princeton, with 42 feet 5 1-2 inches, was third. R. H. Nichols of Dartmouth, who took second place, put the 16 pound ball 22 feet 5 1-2 inches. C. D. Halsey, Jr., of Princeton, with 42 feet 5 1-2 inches, was third.

The time for the championship at 200 yards was 2:12 2-5. It was a rather slow time compared with John H. Nichols of Dartmouth, who took second place, put the 16 pound ball 22 feet 5 1-2 inches. C. D. Halsey, Jr., of Princeton, with 42 feet 5 1-2 inches, was third.

MAN O' WAR IN EASY VICTORY IN WITHERS STAKE

Great Son of Fair Play Gallops All the Way and Breaks Track Record.

STEPS MILE IN 1:35 4-5

Prudery Carries H. P. Whitney's Colors to the Front in the Fashion at Belmont.

By HENRY V. KING.

Samuel Riddle's Man o' War is the greatest horse in the country and probably the greatest in the history of the American turf. He proved this yesterday in the Withers stake at Belmont, where he broke the track record for the mile in 1:35 4-5, four-fifths of a second faster than the record established by Stronquist in 1914, but scores other times, including veteran horsemen who have eluded thoroughbred for years, in his 1:34 1-5 and none slower than 1:33 1-5. And every one of the huge throng at the track agreed that if he had been allowed to race at his best clip he would have made 1:33 and smashed all the world's records to smithereens.

Only once during the race was he permitted to step along as he desired. That was in the fourth furlong, and a score of competent clockers said he ran that eighth of a mile in the phenomenal time of 18 seconds, a time which had never been heard of before, for it was at an express train speed of forty-five miles an hour.

So far as the contest was concerned it was a foregone conclusion. Man o' War was the champion of all opponents, and they were never in the hunt. The chestnut son of Fair Play stepped to the front at the quarter and was released and was never headed, to win pulled up to almost a walk by two lengths. Wildair was much better than David Harum and was second by fifteen lengths.

Proclaimed Best of Thoroughbreds After the race men who have made a study of thoroughbred and have seen the best horses both here and abroad were emphatic in declaring that Man o' War never had an equal. Sydney, Colby and Harum were the only horses who were truly great horses, but yesterday's race of all these imports Mr. Riddle's colt in the place of 1 to 5 and every one of the huge throng at the track agreed that if he had been allowed to race at his best clip he would have made 1:33 and smashed all the world's records to smithereens.

Noted Sportsman Stamp Man o' War as World's Greatest Thoroughbred

MAN O' WAR'S performance in the Withers stunned everybody by its immensity.

"A marvellous performance, and a wonderful horse. Could win the English Derby in a walk and was very over there in the condition he showed today," said Joseph E. Widener, who has seen the best horse and abroad for many years.

"I always thought Tracery the best horse I ever bred," said Major Belmont, "but this colt appears to be a wonderful performer. Having led him, I cannot praise him as highly as others might." "It is only his speed," was the comment of R. T. Wilson, who has owned some very fine horses himself.

"A great sprinter certainly, if nothing more, and qualified to go to any distance by his breeding," said F. R. Hitchcock. "The best horse I have ever seen, and a magnificent individual in the bargain," said C. K. B. Billings, who owned Omar Khayyam, a champion.

"The best horse I have ever seen on the American turf," said Charles Tannier, international expert on the trotting horse and the man who prepared Chilian and Lou Dillon for their world breaking records. "I have never seen anything better in France or England," said S. S. Howland.

"The best horse in my opinion that any of us shall ever see," said Frank Gray Griswold, a close friend of the late Pierre Leffevre, and who has seen a great deal of racing abroad, as well as in this country. "As good as any horse I ever saw," said Thomas Welch, and when asked to compare with the great French racer Sardanapole he added: "Every bit as good, and he was the best horse I ever saw in France." Sardanapole has hitherto been Welch's idol.

Owner Riddle said: "It was only what we expected, as he breezed an eighth this morning in 1:30 3-5 as hard as the boy could pull."
